

4 Key Word

General Tips:

You will need to demonstrate to the child what you want them to do.

Make sure you don't give the child extra clues, for instance don't point or look at the named object.

Only help the child if they are really stuck!

The child may look towards the picture / object but not reach for it, accept this as their response and offer them the chosen item.

Always use items that your child knows the name of.

Praise the child and make it fun!

What's it all about?

The child is learning to respond correctly to sentences with four key words.
